Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • I want to know whether I am eligible before applying. • I don't want my application to be rejected. • I wish the approval process was quick and transparent.	THINKS • Will my income and employment status be enough? • Does my credit history meet the bank's requirements? • Will my existing loans affect my eligibility?
<i>Credit Card Applicant</i>	
DOES • Checks the bank's eligibility criteria. • Collects financial documents. • Uses the prediction application before applying.	FEELS • Anxious about rejection. • Confused by approval requirements. • Confident after receiving an instant prediction.
